

TECHNICAL INFORMATION

XP2 BLACK AND WHITE SINGLE USE CAMERA

SINGLE USE BLACK AND WHITE CAMERA WITH BUILT-IN FLASH

The easy to use ILFORD single use camera offers novice photographers the opportunity to try real black and white photography for themselves.

The camera is attractively packaged with strong monochrome images and striking graphics and is ready for counter display. It is loaded with (24+3) 27 exposures of the excellent ILFORD XP2 ISO 400/27° film. The camera is available in the UK as both stand-alone and process paid varieties.

**WARNING: DUE TO HIGH VOLTAGE
PLEASE DO NOT OPEN CAMERA.**

The camera has a built-in flash effective up to 3m/10ft, an f 9.5 30mm lens and a shutter speed of 1/100 sec. It is focus free and gives sharp pictures from 1 metre/3ft to infinity. The camera is supplied with the film wound out of the cassette and the film is wound back as each picture is taken. A frame counter shows the number of pictures remaining. Safety interlocks prevent double exposures or blank frames.

Processing

The ILFORD XP2 Single Use Camera can be processed through normal C41 colour process available at most printing labs.

- 1 Film advance
- 2 Shutter button
- 3 Exposure counter
- 4 Viewfinder
- 5 Flash ready light (back of camera)
- 6 Flash window
- 7 Lens
- 8 Flash button

Wind film until it stops.

Minimum distance of subject from camera 1m/3ft.
For portraits 2m/6ft.

Hold camera steady.
Press shutter.

On dark days, in deep shade or indoors, use flash.

For flash, press the "Flash Button" until the ready light goes on.

Then take the picture. After the last picture, wind the film to the end (E).
