# SAFETY DATA SHEET

### Ilfosol 3 Film Developer

According to Regulation (EC) No 1907/2006, Annex II, as amended.

| SECTION 1: Identification of    | SECTION 1: Identification of the substance/mixture and of the company/undertaking  |  |
|---------------------------------|--|--|
| 1.1. Product identifier         |  |  |
| Product name                    | Ilfosol 3 Film Developer   |  |
| Product number                  | 1131778  |  |
| Internal identification         | 10255  |  |
| Container size                  | 500ml  |  |
| 1.2. Relevant identified uses   | of the substance or mixture and uses advised against   |  |
| Identified uses                 | Photographic Developer Solution  |  |
| 1.3. Details of the supplier of | the safety data sheet  |  |
| Supplier                        | Distributors<br>UK: HARMAN technology Ltd, Ilford Way, Mobberley, Cheshire, WA16 7JL, UK Tel: 01565<br>650000, Fax: 01565 872734. (http://www.harmantechnology.com)<br>Australia: CR Kennedy & Co Pty Ltd, 663 Chapel Street, South Yarra, Victoria 3141, Australia.<br>Tel: 03 9823 1555, Fax: 03 9827 7216 |  |
| Contact person                  | UK: HS&E Manager: Dr Lindsey Campbell Tel: +44(0)1565 650000, E-mail:<br>lindsey.campbell@harmantechnology.com<br>Australia: Contact Distributor (http://www.crkennedy.com.au) Tel +61 (0)3 9823 1555  |  |
| 1.4. Emergency telephone nu     | mber   |  |
| Emergency telephone             | Australia: 1-800-557346<br>UK and elsewhere: +44(0) 207 858 1228   |  |
| SECTION 2: Hazards identified   | cation   |  |
| 2.1. Classification of the subs | tance or mixture   |  |
| Classification (EC 1272/2008    | -  |  |
| Physical hazards                | Not Classified   |  |
| Health hazards                  | Not Classified   |  |
| Environmental hazards           | Not Classified   |  |
| 2.2. Label elements             |  |  |
| Hazard statements               | EUH208 Contains HYDROQUINONE, 1-Phenyl-4-methyl-4-hydroxymethyl-3-pyrazolidone.<br>May produce an allergic reaction.   |  |
| Precautionary statements        | P102 Keep out of reach of children.  |  |
| Supplemental label information  | EUH210 Safety data sheet available on request.   |  |
| 2.3. Other hazards              |  |  |
| No information available.       |  |  |

| SECTION 3: Composition/inf  | ormation on ingredients  |  |
|---|--|--|
| 3.2. Mixtures   |  |  |
| SODIUM CARBONATE<br>CAS number: 497-19-8  | EC number: 207-838-8   | 1-5%<br>REACH registration number: 01-   |

| <b>Classification</b><br>Acute Tox. 4 - H302<br>Skin Sens. 1 - H317<br>Aquatic Chronic 2 - H411 |  |  |
| The Full Text for all R-Phrase  | es and Hazard Statements are Displayed in Sect   | ion 16.  |
| SECTION 4: First aid measu  | res  |  |
| 4.1. Description of first aid m   | easures  |  |
| nhalation   | Unlikely route of exposure as the product doe person to fresh air at once. Get medical atten   | es not contain volatile substances. Move affected tion if any discomfort continues.                  |
| ngestion  | Remove affected person from source of conta<br>Do not induce vomiting.   | amination. Rinse mouth thoroughly with water.  |
| Skin contact  | Remove affected person from source of contamination. Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if irritation persists after washing. |  |
| Eye contact   | -  | amination. Remove any contact lenses and open<br>ast 15 minutes. Get medical attention if irritation |
| 4.2. Most important symptom   | s and effects, both acute and delayed  |  |
| nhalation   | No specific symptoms known.  |  |
| Ingestion   | No specific symptoms known.  |  |
|   | -  |  |

| Skin contact                                     | May cause skin irritation. May cause skin sensitisation or allergic reactions in sensitive individuals.  |
|--|--|
| Eye contact                                      | May cause temporary eye irritation.  |
| 4.3. Indication of any immedia                   | te medical attention and special treatment needed  |
| Notes for the doctor                             | No specific recommendations.   |
| SECTION 5: Firefighting meas                     | sures  |
| 5.1. Extinguishing media                         |  |
| Suitable extinguishing media                     | The product is non-combustible. Use extinguishing media appropriate for surrounding fire.  |
| 5.2. Special hazards arising fr                  | om the substance or mixture  |
| Specific hazards                                 | The product is non-combustible. No unusual fire or explosion hazards noted.  |
| Hazardous combustion<br>products                 | Thermal decomposition or combustion products may include the following substances: Oxides of: Carbon. Sulphur. Nitrogen. Sodium.   |
| 5.3. Advice for firefighters                     |  |
| Protective actions during firefighting           | Avoid breathing fire gases or vapours.   |
| Special protective equipment<br>for firefighters | Use protective equipment appropriate for surrounding materials. Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace.   |
| SECTION 6: Accidental release                    | e measures   |
| 6.1. Personal precautions, pro                   | tective equipment and emergency procedures   |
| Personal precautions                             | Avoid contact with skin and eyes. Provide adequate ventilation. For personal protection, see Section 8.  |
| 6.2. Environmental precaution                    | <u>s</u>   |
| Environmental precautions                        | Do not discharge into drains or watercourses or onto the ground. Collect and dispose of spillage as indicated in Section 13.   |
| 6.3. Methods and material for                    | containment and cleaning up  |
| Methods for cleaning up                          | Wear protective clothing, gloves, eye and face protection.   |
|  | Small Spillages: Flush away spillage with plenty of water.<br>Large Spillages: Absorb in vermiculite, dry sand or earth and place into containers. Flush<br>contaminated area with plenty of water. Avoid the spillage or runoff entering drains, sewers or<br>watercourses. |
| 6.4. Reference to other section                  | ns   |
| Reference to other sections                      | For personal protection, see Section 8. For waste disposal, see Section 13.  |
| SECTION 7: Handling and storage                  |  |
| 7.1. Precautions for safe hand                   | ling   |
| Usage precautions                                | Provide adequate ventilation. Avoid spilling. Avoid contact with skin and eyes. Do not eat, drink or smoke when using this product. Read and follow manufacturer's recommendations.  |
| 7.2. Conditions for safe storag                  | e, including any incompatibilities   |
| Storage precautions                              | Store in tightly-closed, original container. Storage advice to ensure the product remains in a useable condition throughout its specified shelf life: Store at temperatures above 0°C. Store at temperatures not exceeding 30°C.   |
| Storage class                                    | Chemical storage.  |
|  | 3/9  |

#### 7.3. Specific end use(s)

Specific end use(s)

The identified uses for this product are detailed in Section 1.2.

#### SECTION 8: Exposure controls/Personal protection

#### 8.1. Control parameters

Occupational exposure limits

Long-term exposure limit (8-hour TWA): WEL 0.5 mg/m<sup>3</sup> WEL = Workplace Exposure Limit.

### SODIUM CARBONATE (CAS: 497-19-8)

| DNEL | Workers - Inhalation; Long term local effects: 10 mg/m <sup>3</sup><br>Consumer - Inhalation; Short term local effects: 10 mg/m <sup>3</sup>  |
|------|---|
|      | HYDROQUINONE (CAS: 123-31-9)  |

#### 8.2. Exposure controls

**Protective equipment** 

| SECTION 9: Physical and chemical properties |  |
|---|--|
| Respiratory protection                      | If ventilation is inadequate, suitable respiratory protection must be worn.  |
| Other skin and body<br>protection           | Wear suitable protective clothing as protection against splashing or contamination.                                |
| Hand protection                             | Use protective gloves.   |
| Eye/face protection                         | Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. |
| Appropriate engineering controls            | Provide adequate ventilation. This product must not be handled in a confined space without adequate ventilation.   |
|   |  |

#### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

Appearance

Coloured liquid.

| Colour  | Light (or pale). Yellow. Orange. Brown.  |
|---|--|
| Odour   | No characteristic odour.   |
| рН  | pH (concentrated solution): 9.8  |
| Initial boiling point and range                                 | >100°C @ 760 mm Hg   |
| Relative density  | 1.07 @ 20°C  |
| Solubility(ies)   | 100% Soluble in water.   |
| 9.2. Other information  |  |
| Other information   | Not available.   |
| SECTION 10: Stability and rea                                   | activity   |
| 10.1. Reactivity  |  |
| Reactivity  | See the other subsections of this section for further details.   |
| 10.2. Chemical stability  |  |
| Stability   | Stable under the prescribed storage conditions. No particular stability concerns.  |
| 10.3. Possibility of hazardous                                  | reactions  |
| Possibility of hazardous reactions                              | Under normal conditions of storage and use, no hazardous reactions will occur.   |
| 10.4. Conditions to avoid                                       |  |
| Conditions to avoid   | Avoid excessive heat for prolonged periods of time. Avoid contact with acids.  |
| 10.5. Incompatible materials                                    |  |
| Materials to avoid  | Strong acids. Avoid contact with other photographic solutions and/or cleaning compounds.   |
| 10.6. Hazardous decompositio                                    | on products  |
| Hazardous decomposition<br>products                             | Thermal decomposition or combustion products may include the following substances: Oxides of: Carbon. Sulphur. Nitrogen. Sodium.   |
| SECTION 11: Toxicological in                                    | formation  |
| 11.1. Information on toxicologi                                 | ical effects   |
| Toxicological effects   | This chemical formulation has not been tested for health effects. Exposure effects listed are based on existing health data for the individual components that comprise the mixture. |
| Germ cell mutagenicity<br>Genotoxicity - in vitro               | The product contains a substance that is classified as: Suspected of causing genetic defects.  |
| Carcinogenicity<br>Carcinogenicity                              | The product contains a substance that is classified as: Suspected of causing cancer.   |
| Reproductive toxicity<br>Reproductive toxicity -<br>development | The product contains a substance that is classified as: Suspected of damaging fertility or the unborn child.   |
| Specific target organ toxicity -                                | repeated exposure  |
| STOT - repeated exposure  | The product contains a substance that is classified as: May cause damage to organs through prolonged or repeated exposure if inhaled.  |
| Inhalation  | May cause respiratory system irritation.   |

| Ingestion                        | May cause discomfort if swallowed.   |
|----------------------------------|--|
| Skin contact                     | May cause sensitisation by skin contact. May cause allergic contact eczema.  |
| Eye contact                      | Irritation of eyes and mucous membranes. Repeated exposure may cause chronic eye<br>irritation.  |
| Acute and chronic health hazards | Prolonged or repeated exposure may cause severe irritation. May cause skin<br>irritation/eczema. May cause sensitisation by skin contact. Irritating to eyes. Vapour or spray<br>in the eyes may cause irritation and smarting. May cause allergy. May cause hypersensitivity. |
| Route of exposure                | Skin and/or eye contact Ingestion.   |
| Medical considerations           | May aggravate existing: Skin disorders and allergies. Pre-existing eye problems.   |

#### Toxicological information on ingredients.

HYDROQUINONE

| Acute toxicity - oral               |  |
|-------------------------------------|--|
| Acute toxicity oral (LD₅₀<br>mg/kg) | 375.0  |
| Species                             | Rat  |
| ATE oral (mg/kg)                    | 375.0  |
| Carcinogenicity                     |  |
| IARC carcinogenicity                | IARC Group 3 Not classifiable as to its carcinogenicity to humans. |
|                                     | 1-Phenyl-4-methyl-4-hydroxymethyl-3-pyrazolidone                   |
| Acute toxicity - oral               |  |
| Acute toxicity oral (LD₅₀<br>mg/kg) | 566.0  |
| Species                             | Rat  |
| ATE oral (mg/kg)                    | 566.0  |

### SECTION 12: Ecological information

#### 12.1. Toxicity

Toxicity

The product contains a substance which is very toxic to aquatic organisms.

#### Ecological information on ingredients.

#### SODIUM CARBONATE

| Acute aquatic toxicity |   |
|------------------------|---|
| Acute toxicity - fish  | LC₅₀, 96 hours: 320 (Bluegill) mg/l, Fish |

#### HYDROQUINONE

| Acute aquatic toxicity |   |

### Safe Use of Mixtures Information (SUMI)

# Photoprocessing Solutions from Liquid or Powder Concentrates: Manual Processing (Professional Use)

#### Disclaimer

This SUMI is a generic document for communicating conditions of safe use of a product in response to the REACH obligation. This document relates only to conditions of safe use and is not specific to a product. By adding this SUMI to a specific product Safety Data Sheet (SDS), the importer/formulator declares that the mixture can safely be used following the instructions below. Following occupational health legislation, the employer of workers remains responsible for communicating relevant use information to employees. When developing workplace instructions for employees, SUMI Sheets should always be considered in combination with the SDS and the label of the product. Derived No Effect Levels (DNEL) and Predicted No Effect Concentration (PNEC) values of substances derived from the Chemical Safety Assessment (CSA) will be given in section 8 of the SDS. The REACH registration numbers, where applicable, complete an extended product SDS.

| Operational conditions                 |  |  |  |
|--|--|--|--|
| Maximum duration                       | 1 hour per day for diluting liquid concentrate   | s or dissolving powders (when applicable). |  |
|  | 1 hour per day for mixing and disposal activit   | ies.                                       |  |
|  | 6 hours per day for application (= processing)   | l.   |  |
| Frequency of exposure                  | Dissolving powders: 25 days per year.  |  |  |
|  | Diluting liquids and all other activities: 50 day  | vs per year.                               |  |
| Physical state                         | As supplied: liquid concentrates or powder co  | oncentrates.                               |  |
|  | As used, after making up: aqueous working so   | olution.                                   |  |
| Process conditions                     | Covers use at ambient temperatures.  |  |  |
|  | Provide a good standard of controlled ventila  | tion (10 to 15 air changes per hour).      |  |
|  | Keep emissions below the occupational expo   | sure limits of the ingredients             |  |
|  | specified in section 8 of the SDS.   | -  |  |
|  | Avoid direct contact.  |  |  |
|  | Regular cleaning of equipment and work area  | Э.   |  |
| Risk management measures               |  |  |  |
| Conditions and measures                | Wear safety glasses with side shields.   |  |  |
| related to                             | Wear appropriate chemical resistant gloves: see section 8 of the SDS.                    |  |  |
| Personal Protection Equipment          | Wear lab coat or overall.  |  |  |
| (PPE), hygiene and health              | No respiratory protective equipment is required under normal conditions of use, provided |  |  |
| evaluation                             | that adequate ventilation is in place.   |  |  |
|  | Eye wash station and emergency showers are   | e recommended.                             |  |
|  | Avoid breathing dust (when handling powder   | rs), mist/vapours.                         |  |
|  | Avoid contact with skin, eyes and clothing.  |  |  |
|  | Training of worker in relation to proper use a   | nd maintenance of the PPE must be ensured. |  |
|  |  |  |  |
|  |  |  |  |
| Good practice advice                   |  |  |  |
| Use personal protective equipme        | ent as required.   |  |  |
| Wash hands before breaks and a         | fter work.   |  |  |
| Keep good hygiene and safety practice. |  |  |  |
| Use only with adequate ventilation.    |  |  |  |
| Do not eat, drink or smoke when        | using this product.  |  |  |

Environmental measures

Do not allow this material to drain into sewers/water supplies.

Ensure collection and disposal with appropriately licenced waste contractor.

Dispose of waste material according to Local, State, Federal and Provincial Environmental Regulations.

Use descriptors

PW-Widespread use by professional workers.

SU7-Printing and reproduction of recorded media.

PC30-Photochemicals.

PROC5-Mixing or blending in batch processes.

PROC8a-Transfer of substance or mixture (charging and discharging) at non-dedicated facilities.

PROC8b-Transfer of substance or mixture (charging and discharging) at dedicated facilities.

PROC13-Treatment of articles by dipping and pouring.

ERC8a-Widespread use of non-reactive processing aid (no inclusion into or onto article, indoor).

ERC8b-Widespread use of reactive processing aid (no inclusion into or onto article, indoor).

Additional information on product composition

In section 2 of the SDS as well as on the label, the classification of the mixture as supplied is provided.

See section 3 of the SDS for information on the product's composition. Note that this information will be for the concentrate supplied, which is used to create the working strength (WS) solution.

Relevant limit values of ingredients on which the exposure assessment is based, are listed in section 8 of the SDS.

The product may contain sensitizing ingredients that may cause allergic reaction to certain people.

Section 2 of the SDS states these ingredients where applicable.
